Department of Obstetrics and Gynecology, Faculty of Medicine, Acıbadem Mehmet Ali Aydınlar University, İstanbul, TURKEY

Dear Colleagues,

As of January 2023, our “**Journal of Controversies Obstetrics & Gynecology and Pediatrics**” has been published under the Medihealth Academy to publish all articles, reviews and case reports on Pediatrics, especially in the field of Obstetrics and Gynecology. This year JCOGP has been achieved in a rapid way with an increasing acceleration.

In the three volumes of 2023, we published at most two letter to the editor, at least 10 research articles, and 5 review paper. In each volume of JCOGP, we try to publish articles that contain current topics and create excitement in the field Obstetrics and Gynecology and Pediatrics for readers. The articles that will be published are planned according to acceptance order. Referee and download status of the manuscripts are posted on our journal's web site. To guide the authors, the statistics tab of our journal website, acceptance, rejection, and assessment durations of the candidate articles are shared with the authors.

Without the ethical permission no articles could be shared in our journal. In the forth volume, I would like to thank all academics who accepted to be referees and assessed the articles.

We are pleasure to see the increase in the number of articles which needs for multiple assessment by a referee and hence, endless thanks to all our referees including the Editors and the Editorial board.

Lastly, I would like to congratulate all the authors whose articles have been published in the year 2023 and hope to see you all in the new volumes in 2024.

Cordially Yours...

Prof. Oya GÖKMEN, MD
Honorary Editor in Chief
