Biologist, MediHealth Academy Publishing, Ankara, Türkiye

Dear Colleagues,

It is with immense pleasure that we present the January 2026 issue of the Journal of Controversies in Obstetrics & Gynecology and Pediatrics, published under the auspices of the Medihealth Academy. This issue marks the first publication of the new year and reflects our ongoing commitment to advancing scientific knowledge in the fields of obstetrics, gynecology, and pediatrics.

Since its establishment, the Journal of Controversies in Obstetrics & Gynecology and Pediatrics has aimed to provide a scientific platform for evidence-based research and critical discussion of debated clinical topics. In rapidly evolving areas of medical practice, the careful examination of complex and controversial issues remains essential for improving patient care and supporting informed clinical decision-making.

The January 2026 issue presents focused yet diverse scientific content. It includes original research articles and review papers addressing pathological conditions encountered during pregnancy, a contribution exploring the use of artificial intelligence in the management of challenges within the pregnant population, and case reports from the pediatric patient group. Collectively, these contributions reflect both current clinical concerns and emerging perspectives relevant to everyday practice.

The journal maintains its established policy of publishing in English in order to support international visibility and scholarly exchange. This ongoing approach ensures that the scientific work of our authors remains accessible to a global audience of clinicians, researchers, and educators.

We would like to express our sincere appreciation to the authors for their valuable contributions, to the reviewers for their careful and constructive evaluations, and to the editorial team for their dedication throughout the publication process. Their combined efforts are fundamental to maintaining the scientific standards of the journal.

We invite researchers and healthcare professionals to contribute to future issues and to engage in the scholarly dialogue fostered by the Journal of Controversies in Obstetrics & Gynecology and Pediatrics. Through critical inquiry, multidisciplinary collaboration, and innovation, we aim to continue shaping the future of obstetrics, gynecology, and pediatrics.

Thank you for your continued support.

Sincerely,

Editorial Board
Journal of Controversies in Obstetrics & Gynecology and Pediatrics
Medihealth Academy

ORIGINAL ARTICLE

- Simulation-based analysis of AI responses to sexual myths during pregnancy 1-6
Toruntay Alıç SB.

REVIEW

- Elevated values in preeclampsia: diagnostic and prognostic role of NT-proBNP and ANP 7-14
Uysal E, Mert A.

CASE REPORTS

- Intramuscular hemangioma in the foot of a child: a rare case report 15-18
Kabalıcı M.

- Laparoscopic management of adnexal torsion during pregnancy 19-21
Ali C, Albayrak Kaya Y, Sürecek MC.

- Complement-mediated warm autoimmune hemolytic anemia associated with acute poststreptococcal glomerulonephritis: a pediatric case report 22-24
Tursun S, Toprak Ş, Tandırcıoğlu ÜA, Albayrak M.
